**Re.: Staff Discussion Paper on a Cap and Trade Regulatory Framework for Natural Gas Utilities – EB-2015-0363**

Dear Sir/Madam:

Arauco North America\* would like to go on record as supporting the display of separate line items on utility-issued invoices for the new cap and trade charge, administrative costs, and delivery charges.

We believe that they should appear separately to support transparency for customers.

Please consider our voice in combination with all other natural gas utilities customers when making your final decision.

Regards,

Chris Zalewski  
Purchasing Director

\*ARAUCO North America is a trade name used by Flakeboard Company Limited and its various North America affiliates.
