Re: Hydro One Networks Inc. (Hydro One) 2017 & 2018 Transmission Rate Application
AMPCO Intervention Request
Board File No. EB-2016-0160

Dear Ms. Walli:

I am writing pursuant to the Board's Notice of Application and Hearing regarding the above proceeding to request intervenor status.

AMPCO's Interest

AMPCO is a not-for-profit consumer interest advocacy organization. AMPCO's members represent Ontario's major industries: forestry, chemical, mining and minerals, steel, petroleum products, cement, automotive and manufacturing and business consumers in general. AMPCO members are major investors, major employers and a major part of communities in which we operate, across Ontario.

AMPCO and its member companies are well known to the Board. AMPCO participates in many proceedings, working groups, consultations and initiatives of the Ontario Energy Board in which matters relevant to Ontario's large electricity consumers are being addressed. AMPCO has previously been approved by the Board in numerous Hydro One proceedings including Hydro One's last transmission rate application EB-2014-0140 for 2015/2016 rates.

AMPCO's interest in the Board's regulation of distribution and transmission companies relates generally to the interests of consumers with respect to price, adequacy, reliability and quality of electricity service, and, more particularly, to how costs are allocated to, and rates are designed to recover costs from, industrial customers.

AMPCO is intervening in order to ensure that consumer interests and in particular the interests of industrial customers are fully represented in the determination of just and reasonable rates.

We respectfully request that the Board please confirm AMPCO's eligibility for an award of costs in this matter. AMPCO has been granted intervenor cost awards in other OEB proceedings.
