Ontario Energy Board

IN THE MATTER OF the *Ontario Energy Board Act, 1998*;

AND IN THE MATTER OF an Application by Ontario Power Generation Inc. for an order or orders approving new payment amounts for its regulated facilities for the period 2017-2021.

NOTICE OF INTERVENTION OF THE QUINTE MANUFACTURERS ASSOCIATION

Intervenor Background

The Quinte Manufacturers Association (“QMA”) is an organization of major companies with significant manufacturing and processing operations located in the greater Bay of Quinte region which includes the cities of Belleville and Quinte West.

Statement of Interest

The QMA is very concerned with Ontario Power Generation Inc.’s (“OPG”) Application and intends to actively participate in the above-noted proceeding. Members of the QMA are major consumers of electricity and some of the largest employers in the Bay of Quinte region.

The QMA is intervening because it wishes to ensure that its members are properly represented in the hearing process. It is interested in economic efficiency and related issues it believes will impact its members and their local communities. Further, that the payment amounts requested and to be recovered by OPG are fair and appropriate to QMA members.

Intervention

Given the nature of OPG’s application, the QMA believes an oral hearing is appropriate for this proceeding. The QMA will be an active participant and will also rely on the support of experts.

Costs

The QMA believes that it meets the eligibility requirements set out in the Ontario Energy Board’s *Rules of Practice and Procedure* and the *Practice Direction on Cost Awards* and will be requesting an award of costs.

Communications

The QMA requests that correspondence and documentation related to the proceeding be sent by e-mail to:
