To whom it may concern,

I am writing to you today to voice my concern for another rate increase of our Hydro rates. As a small business owner these prices are simply too high and cannot be sustained. Our current system of energy rate increase does take into consideration all the mistakes made by Ontario Hydro. No matter how many bad decision are made, we the consumer continue paying for bad management of our Hydro system. As an example, the Caledonia land claim dispute, the line is costing taxpayers millions in interest instead. Before building a line going through Native land, shouldn't Management receive approval before starting constructions?

Solar and Wind Power system are not as efficient as Hydro dams, please stop signing more contracts. Can't we buy power from Hydro Quebec at a cheaper rate? Hydro Quebec CEO's salary is much less then Hydro One CEO and it is better managed. Can we at least look for another CEO?

Please do not allow the rate increase.

My name is:

Donald Prezeau
