To Board Secretary:

Per your invitation, I wish to make a presentation at the public meeting in Gananoque on Wednesday September 14.

That is if you don't require a bunch of red tape in order for me to do this. I'm not situated to access and use an online "application" form.

If you create stumbling blocks for residents to be heard, I'll make my presentation through the media.

I note that your ad gives an email address and a LD Toronto phone # but no toll-free number for residents who don't use a computer. It looks as if you wish to be perceived as being open and concerned--but you're not actually enabling ALL electricity users to participate in the process.

Yours truly,
Barbara Jones
