Dear Ms. Walli:

Re: EB-2016-0160 Hydro One Networks Inc. – Technical Conference

I am writing with regard to two follow-up matters concerning the Technical Conference.

First, Hydro One expects to have all responses to undertakings filed by close of business October 7, 2016.

Second, the following errata to the Day 2 Transcript are noted:

- Page 12, Line 15-20, The answer provided by Mr. Alagheband should be changed to read the following: “And L in front of it is actually the logarithm of that, so LELSAT stands for the logarithm of electricity saturation. It measures how much electric equipment the households have that may be used. The other one (LELUSE) simply means, you know, the usage rate that households have on the equipment.”;
- Page 64, Lines 9, 15 and 17, the word “dozen” should be changed to read “DESN” which is a HONI acronym;
- Page 113, Line 11, the word “live-view” should be changed to read “LineVue”;
- Page 121, Line 27, the word “week” should be changed to read “work”; and
- Scott McLachlan’s name is incorrectly spelled throughout the document. “McLaughlin” should be replaced with “McLachlan” throughout.

Yours truly,

Gordon M. Nettleton
