Ms. Kirsten Walli
Ontario Energy Board

Dear Ms. Walli:

Re: EB-2016-0248 – Union Gas Limited – Motion to Review the Ontario Energy Board’s Decision and Order on Cost Awards dated August 9, 2016 (EB-2016-0122) – Response to Procedural Order #1

Union Gas is writing at this time to provide its position regarding the matter of disallowance of a portion of IGUA’s cost claim, with respect to EB-2016-0122.

Union Gas has reviewed the letter from IGUA dated August 10, 2016 and their written submissions filed October 11, 2016. Union Gas confirms its previous position that it has no objections to any of the costs claim by IGUA and in particular, Union Gas has no objection to the full amount of the costs claimed by IGUA, with respect to its review of OEB Staff submissions, on June 14, 2016 as Union Gas believes these are reasonably incurred costs.

Union Gas supports IGUA’s position that it is reasonable to expect that an intervenor would review the final submissions of Board Staff, or other intervenors, after of their own final submissions are filed. Union Gas agrees that effective participation in a proceeding would require an intervenor to monitor the participation of other parties, including Board Staff, and remain informed of the positions being taken by other interested parties, on issues of reasonable and legitimate concern to the intervenor and the proceeding.

Yours truly
