Dear Mr. Andrew Sasso:

**Re: Toronto Hydro-Electric System Limited (Toronto Hydro)  
Application for Rates  
OEB File Number EB-2016-0254**

On December 15, 2016, the OEB issued its Decision and Rate Order on Toronto Hydro's 2017 rate application. On December 19, 2016, in its submission on the draft Tariff of Rates and Charges, Toronto Hydro noted that the bill impacts identified in the Decision did not reflect the recent change to the RRRP charge.

Today, the OEB is re-issuing the Decision and Rate Order, with this calculation error corrected. The correction can be found on page two of the Decision, a copy of which is attached. The first sentence of the last paragraph now reads as follows:

This Decision on Toronto Hydro's Custom IR update application will result in a monthly decrease of \$2.16 for a residential customer consuming 750 kWh which represents an approximate 1.5% decrease on total bill.

Pursuant to Rule 41.02 of the *Rules of Practice and Procedure*, the OEB may at any time, without notice or a hearing of any kind, correct a typographical error, error of calculation or similar error made in its orders or decisions. The OEB considers this to be a calculation error. The Decision and Order is not otherwise changed in any way.

Yours truly,
