Toronto, ON M4P 1E4

Attention: Kirsten Walli, Board Secretary

Dear Ms. Walli:

**Re: Community Expansion Generic Proceeding (EB-2016-0004)
Ontario Sustainable Energy Association (OSEA) – Response to Enbridge’s
Comments on OSEA Cost Claim**

We are in receipt of Enbridge Gas Distribution’s letter of December 9, 2016.

OSEA’s consultant, Ms. Fraser, regularly advises both OSEA and BOMA at OEB hearings. Ms. Fraser advises the parties on different issues based on the parties’ respective interests and mandate. For OSEA, Ms. Fraser reviews aspects of the submissions and documents provided by the utilities and intervenors for issues specific to sustainable energy (i.e. renewable energy generation, conservation, climate change). Ms. Fraser docketed to OSEA and BOMA based on the time spent for issues relevant to each intervenor.

We understand that there was a clerical mistake on Ms. Fraser’s docket for BOMA on March 26, 2016, which should read 2 hours, not 20 hours. We understand that BOMA will be submitting a revised cost estimate.

Yours truly,

Robert Woon
