Dear Ms Walli:

**Re: Kingston Hydro Corporation Electricity Distribution Licence No. ED-2003-0057
2017 Electricity Distribution Rate Application (EB-2016-0087) Draft Tariff Review**

Per the Decision and Rate Order issued on December 29, 2016 for Kingston Hydro Corporation's ('Kingston') Custom IR – Year 2 Distribution Rate Application, Kingston has reviewed the Tariff of Rates and Charges ('Tariff') set out in Schedule A of the Decision and Rate Order. Kingston finds the Tariff to be complete and accurate throughout aside from one finding noted below:

- For the Street Lighting Service Classification, p. 10, the monthly service charge description in the draft Tariff is 'Service Charge (per light)' whereas in previous Kingston tariffs the description has been 'Service Charge (per connection)'. As evidenced in Kingston's Custom IR application (EB-2015-0083), Kingston does apply the monthly service charge on a 'per light' or 'per device' basis, and using 'per light' in the description more transparently reflects the basis on which the charge is applied.

Yours truly,
