## LETTER OF COMMENT

### Comments:

I cannot understand why Thunder Bay Hydro cannot ask for a rate increase under OMA costs for infrastructure improvements instead of asking for an increased rate of return on equity to do so.

My concern is that the shareholder may ask for a return on equity and the utility would have no choice but provide it.

I ask that the OEB not grant Thunder Bay Hydro an increased return on equity and have them factor in infrastructure improvements under OMA costs if possible.
