Subject: Fwd: Cap & Trade Tax

We called your office on 1/5/2017. Our file #EB-2016-0300. We are extremely upset with your decision to hide this added tax under 'delivery charge'. This does not reflect well on you and the Ontario Government. It suggests a very dishonest way to out maneuver the consumers' intelligence. For the sake of transparency, ethical obligation and responsibility, you must show this charge as a separate item, on all fuel bills. Would you please listen to logic & common sense. Ontario voters will not forgive you. Thanks, john marcinov.

Subject: Cap & Trade Tax

We have been informed by Enbridge Gas that the new Cap/Trade/Carbon Tax will not be shown on our bills. Rather, this illegal tax will be hidden under "delivery charge". This is not a very transparent way for the Ontario Government and the Ontario Energy Board to inflict another cost on consumers. For the sake of Clarity, Honesty and Responsible Business Values, this is not acceptable. It hints of collusion and another cover up by government. This tax must be shown separately on all electricity, fuel, transportation of goods, travel, goods & services, receipts & invoices. Along with the current PST/GST charge. Not showing this hidden tax, is an attempt to further confuse the Ontario tax payers, and to make the charge more palatable to the unsuspecting Ontario voters. John Marcinov, [REDACTED]
