## LETTER OF COMMENT

### Comments:

This hearing is obviously a formality as the gas companies have already informed their customers of the approximate increases, which they will begin collecting January 1, 2017.

My letter is in regards to how the 'Cap and Trade' will be shown, or hidden, on our gas bills. I do NOT want to see this included in the Delivery Charge. I want to see a line on our bills that clearly state the amount of Cap and Trade that I am paying. I want to see what amounts, ie. Delivery, that is attributed to the gas company vs how much my government is charging for its portion of the bill.

The government says that it is the OEB that has insisted that the Cap and Trade be included in the Delivery charge. I find this surprising that it would matter to the OEB. Since it is now up to you, handle the situation properly and show the Cap and Trade clearly on all gas bills.

Unlike the Delivery charge, HST should not be applied to the Cap and Trade TAX!
