re: Current Enbridge billing
Complaint:

With my first Enbridge bill of January 2017;

Wynne's carbon tax of 3.3518 is included in the
Enbridge delivery charge under cap and trade.

The delivery charge is added to the total bill which included
the gas supply charge and other charges.
Then this cap and trade hidden charge is TAXED AGAIN
with the HST.

This is gouging the consumer of natural gas with
DOUBLE TAXATION and plain wrong.

The carbon tax paid should be listed separately, added to the consumers
bill and not taxed again.

Daniel Kuryliak
