LETTER OF COMMENT

Comments:

Why are the Welland Hydro asking for an increase? Most people are trying to save money with their hydro bill by purchasing LED lights, which are not cheap, and switching them over. Is it because Welland Hydro is not receiving the money they were accustomed to receiving prior to people changing over to LED lights. There are still people out there that are having a tough time making ends meet. Hydro rates go up, property taxes go up, food prices go up but wages do not seem to keep up. When is it going to stop. It is time to step up and take a stand and say no to further increases until people are able to stand on their own with wage increases matching increases by utility companies.
