Enbridge Gas Distribution
500 Consumers Road
North York, Ontario M2J 1P8
Canada

February 3, 2017

VIA RESS, EMAIL and COURIER

Ms Kirsten Walli
Board Secretary
Ontario Energy Board
2300 Yonge Street, Suite 2700
Toronto, Ontario, M4P 1E4

Dear Ms. Walli:

**Re: Enbridge Gas Distribution Inc. ("Enbridge")
Cap and Trade Compliance Plan ("Application")
Ontario Energy Board ("Board") File Number: EB-2016-0300**

On January 27, 2017, the Board issued Procedural Order No. 1 which includes a Draft Issues List, and indicates that the applicants and intervenors may file comments on the Draft Issues List on or before February 3, 2017.

Enbridge has reviewed the Draft Issues List and suggests additions (in italics) as follows:

- 1.2 Are the volume forecasts *and methodology* used reasonable and appropriate?
- 1.3 Are the GHG emissions forecasts *and methodology* reasonable and appropriate?
- 5. Cost Recovery** – Is the proposed manner to recover costs reasonable and appropriate? *Are the tariffs (Cap and Trade Unit Rates) just and reasonable?*
- 6. Implementation** - *When do the final approved tariffs (Cap and Trade Unit Rates) come into effect replacing interim tariffs and how do they reflect the amounts recovered under the interim tariffs?*

In a broader comment around the Draft Issues List, Enbridge would like to emphasize the unique confidentiality considerations given that the carbon market is fundamentally a financial market. The subject matter for this proceeding is unique and new to us all and as such Enbridge respectfully requests that this is considered at all times.

In addition to the comments above, Enbridge reserves the right to respond to comments on the Draft Issues List filed by intervenors.

Please contact the undersigned if you have any questions.

Yours truly,

(Original Signed)

Edith Chin
