Good evening.....I simply cannot believe that this is about to happen.....my goodness.....electricity bills are so insanely high already.....thousands unable to pay their bills.....having to choose between eating or heating.....trying to conserve consumption like crazy but it not making any difference as all those other outrageous delivery etc. charges we have to pay are beyond our control.....and OPG is asking for an increase? Are they nuts?.....my lord.....don't take from us anymore.....leave the hardworking people of Ontario alone. WE CAN'T TAKE ANY MORE OF THIS!
