Subject: Re: NRG - response by March 13th

Reference #EB 2016-0351

I represent many people in the Aylmer/Malahide area regarding the price of natural gas as far as delivery, gas commodity and the monthly service fee.

What we are requesting the OEB make sure that EPCOR Natural Gas Ltd. have competitive rates with Union Gas which more or less surrounds the area which NRG customers are situated.

As I have stated in the past an NRG bill can easily total 50% more than a Union bill in the winter months. Please remember that we are southern Ontario not northern Ontario as we were referred to in the fall meeting of 2016 as paying the same rates as northern Ontario customers.

I am requesting an oral meeting to be conducted once again somewhere in Malahide township.
