Ontario Energy Board;

Regarding carbon taxing: STOP, repeal this draconian bill. Climate change is a normal phenomenon. Dont believe it, what made the ice age disappear?? as there were NO automobiles no industrialisation etc...

China is polluting, make them pay, as they finance much of the U.S.A and Canadian debt, there is NO shortage of money.

Carbon tax is an attack on capitalism, NOT climate change(which is natural) The "green climate fund" (united nations) is demanding developed countries contribute one hundred (100) billion dollars per year. Canada has already given two point nine three (2.93) billion dollars to this hoax (theft). This is MY tax dollars NOT the governments money, but tax payers money. If an individual wishes to donate ~~their~~ money fine, BUT STOP STEALING MY MONEY.

Many top scientist, including Physicist Dr. Timothy Ball and German meteorologist/Physicist Dr. Klaus Eucart Puls to name two have declared "green" a HOAX. Recently u.n.i.c.e.f declared Bill Gates and Warren Buffet have TOO MUCH MONEY!!! First this is NONE of ~~their~~ business. Perhaps if they went to work, took risk etc, as these individuals did they to would have wealth, instead of expecting hand outs.

U.S. President Donald Trump will not install a "green theft tax on Americans because he is a strong and VERY smart, business savy leader. Due to capitalism President Trump got where he is by hard work, otherwise he would be mopping floors in motels instead of owning a large chain of them."The American Dream"

Canada is now the highest taxed nation. 42% of ALL income (pre carbon tax) goes to tax of some form or another.

Canada now taxing sales of primary residence,
Ontario has 13% sales tax on almost everything
Ontario now has the HIGHEST electricity in the developed world

And now carbon (crap) tax; Estimated at two thousand, two hundred and fifty 2250 dollars per person per year. To many middle income retirees this is one months net pension payment, not that any one cares. Plus any one taxing basic heating products in Canada should be charged with treason.

Enough is enough stop this green lie. There is a very scary similarity between greenism and nazism. Hitler tried to take over the world with bombs and bullits in five years, where as the green nazis have succeded in brain washing with lies, the youth, and stealing rights and money over forty years. The u.n being the "supreme leader; dictator. History does repeat itself. Hitler would be proud.

Americans are so lucky to have a president who cant be corrupted by this green carbon crap. I only wish I were an AMERICAN with PRESIDENT TRUMP. I now HATE Canada and HATE Ontario because of this . Hope you are proud.

*PS Stop hiding carbon tax on energy bills. My Jan/Feb Enbridge nat gas bill had \$19.80 carbon tax hidden.

***Do not turn Canada into another Greece
