Decision and Order

2544022 Ontario Inc., doing business as Wholesale Energy System filed a complete application on January 16, 2017 with the Ontario Energy Board (OEB), under section 60 of the *Ontario Energy Board Act, 1998* (the Act) for an electricity retailer licence. The licence would allow the applicant to retail electricity to large volume consumers in Ontario.

A Notice of Application and Written Hearing was posted on the OEB's website on January 23, 2017. The Notice provided time for submissions on the application evidence, as well as responses from the applicant. No parties responded to the Notice.

This Decision and Order is being issued by Delegated Authority, pursuant to Section 6 of the Act.

After considering the application, I find it to be in the public interest to issue the electricity retailer licence under Part V of the Act. I am issuing this electricity retailer licence for a period of two years. As a new entrant to the market, the applicant should use the next two years to demonstrate that it is a reliable participant in the electricity market.

IT IS ORDERED THAT:

1. The application for an electricity retailer licence (large volume consumers only) is granted, on such conditions as are contained in the attached licence.

DATED at Toronto, April 13, 2017
