Dear Mr. Gleason:

**Re: EnWin Utilities Ltd.
Application for Rates
OEB File Number EB-2017-0132**

A preliminary review of the EnWin Utilities Ltd.'s (EnWin Utilities) application has identified that certain sections of the evidence supporting the application do not comply with the OEB's Filing Requirements¹ and Guidelines² for stranded meter costs and/or the associated spreadsheets, models and workforms. As a result, the OEB is unable to process your application at this time.

The missing information includes:

Chapter 2 Filing Requirement Reference - page #	Description
19	A completed Appendix 2-S must be provided in Excel format.

¹ Chapter 2 of the *Filing Requirements for Electricity Distribution Rate Applications – 2016 Edition for 2017 Rate Applications*, dated July 14, 2016

² G-2011-0001 Guideline Smart Meter Funding and Cost Recovery – Final Disposition

Smart Meter Funding and Cost Recover – Final Disposition	Description
23	As a general rule, the OEB expects that the recovery of stranded meter costs should be achievable in a period no longer than four years. The distributor can propose a shorter recovery period, but should take into account rate impacts on its affected customers. Please provide bill impacts in Excel format.

Please also provide Tables 2 and 3 from EnWin Utilities application in Excel format.

The OEB expects that EnWin Utilities will file the above listed required information as soon as possible.

If any of the information that is identified as missing is located in sections other than those identified in the Filing Requirements and Guidelines, or if any of the information is not applicable in your circumstances, please provide an explanation when filing the remainder of the required information.

Please direct any questions relating to this application to Kelli Benincasa, Analyst at 416-440-7624 or kelli.benincasa@ontarioenergyboard.ca.

Yours truly,
