ONTARIO ENERGY BOARD NOTICE TO CUSTOMERS OF INNPPOWER CORPORATION

InnPower Corporation has applied to raise its electricity distribution rates and other charges.

Learn more. Have your say.

InnPower Corporation has applied to the Ontario Energy Board to raise its electricity distribution rates effective January 1, 2017. If the application is approved, a typical residential customer of InnPower Corporation would see an increase of approximately \$10.69 per month. Customers in the commercial class (known as General Service 50 to 4,999 KW) would see an increase of approximately \$238.73 per month. Other customers may also be affected.

InnPower Corporation has also requested a rate increase to recover costs arising from damage caused by an ice storm in March, 2016. If approved, the proposed rate increase would be temporary. It would last only until any approved costs have been recovered.

InnPower Corporation has also applied for approval of increases to certain specific service charges for services such as disconnection and reconnection, the temporary installation and removal of certain equipment, and access to power poles. It is important to review the application carefully to determine whether you may be affected by these changes.

THE ONTARIO ENERGY BOARD IS HOLDING A PUBLIC HEARING

The OEB will hold a public hearing to consider the application filed by InnPower. During the hearing, we will question InnPower on its case for a rate increase. We will also hear questions and arguments from individual customers and from groups that represent InnPower's customers. At the end of this hearing, the OEB will decide what, if any, rate increase will be allowed.

Distributors such as InnPower typically apply for a full review of their rates every five years. Any rate changes for the years in between are made by applying an OEB-approved formula which is tied to inflation and other factors intended to promote efficiency. You may not get notice of future rate changes made by applying the formula.

The OEB is an independent and impartial public agency. We make decisions that serve the public interest. Our goal is to promote a financially viable and efficient energy sector that provides you with reliable energy services at a reasonable cost.

BE INFORMED AND HAVE YOUR SAY

You have the right to information regarding this application and to be involved in the process.

- You can review InnPower's application on the OEB's website now.
- You can attend the OEB's community meeting (date, time and place set out above) where you can ask questions, make comments and voice your concerns.
- You can file a letter with your comments, which will be considered during the hearing.
- You can become an active participant (called an intervenor). Apply by **March 10, 2017** or the hearing will go ahead without you and you will not receive any further notice of the proceeding.
- At the end of the process, you can review the OEB's decision and its reasons on our website.

LEARN MORE

These proposed charges relate to InnPower's distribution services. They make up part of the Delivery line - one of the five line items on your bill. Our file number for this case is **EB-2016-0085**. To learn more about this hearing, find instructions on how to file letters or become an intervenor, or to access any document related to this case, please select the file number **EB-2016-0085** from the list on the OEB website: www.ontarioenergyboard.ca/notice. PRIVACY

If you write a letter of comment, your name and the content of your letter will be put on the public record and the OEB website. However, your personal telephone number, home address and email address will be removed. If you are a business, all your information will remain public.
