Dear Board Secretary:

Re: Status ED-2016-0177

The Ontario Energy Board Issued Dubreuil Lumber Inc. an interim electricity distribution licence originally on July 29, 2016. I'm requesting an extension of the existing interim electricity distribution licence for a period of 6 months.

As you are aware the OED issued an order (EB-2017-0153) on April 4<sup>th</sup>, 2017 transferring possession and control of our assets to Algoma Power for a period of 6 months. During the extension time we will be in discussion to permentally transfer ownership to them or to another OEB approved party which we weren't able to complete in the 23 days following the order

If you require additional information or have any questions feel free to contract us.

Thank You
