Subject: Vary Order EB-2016-0268 and wpd White Pines Wind Incorporated

Ontario Energy Board

Attn: Board Secretary,

I am writing to you in regard to Vary Order EB-2016-0268 issued October 20, 2016 wherein the Decision and Order in EB-2013-0339, issued March 19, 2015 was varied such that wpd White Pines Wind Incorporated (White Pines) leave to construct was deemed conditional upon White Pines commencing construction of their transmission facilities by March 31, 2017.

I would like to bring to your attention the facts that the March 31, 2017 construction commencement date in Vary Order EB-2016-0268 has passed and White Pines does not appear to have commenced construction of their transmission facilities in Prince Edward County as approved pursuant to the Decision and Order EB-2013-0339. Would you please confirm that with White Pines not having achieved the construction commencement date specified in Vary Order EB-2016-0268, that the Decision and Order in EB-2013-0339 has now lapsed and the leave to construct certain transmission facilities in Prince Edward County granted pursuant to EB-2013-0339 is no longer valid.

With the possible impacts this generation project will have on the reliability and quality of the electricity service and power supply grid in Prince Edward County, I remain concerned about the implementation of this project; therefore I respectfully request the OEB to confirm if Order EB-2013-0339 remains in effect; or if my concerns are no longer valid with the expiration of this Order.

Thank you for your time and attention to the matter.

Ray Ford
