## **LEAVE TO CONSTRUCT CHANGE REQUEST**

**Project Name:** Sudbury Expansion Project

**OEB File Number:** EB-2015-0120

**Change Request:** #6

### **Description and Rationale for Change**

For the pipeline to be constructed on Crean Hill Road Union is proposing to change the coating of the pipeline from Yellow Jacket to an epoxy coating. Since filing the original application Union has completed additional field studies along Crean Hill Road which have determined due to ground conditions that an epoxy coating will provide better protection for the Proposed Pipeline.

### **Construction and Restoration Practices**

There are no changes proposed to the construction and restoration procedures proposed in the original filing.

### **Environmental**

No new environmental mitigation measures will be required.

### **Consultation**

No additional consultations were required.

### **Lands**

There are no changes to the Land requirements.

### **Costs**

Changing the coating will result in an increase of pipeline costs by approximately \$40,000.00 this amount can be covered within the contingencies identified in Schedule 4 of the pre filed evidence.

### **Schedule**

The pipeline and customer station will be constructed in 2017.

### **Maps**

No map is required for this change request.
