Regarding file EB-2017-0049 I do not support the increase in electricity distribution rates and other charges proposed by Hydro One Networks. More must be done to rein in salaries, pensions and other benefits that employees of Hydro One make and cut costs that way. These are considerably more than those employed in the private sector and those that are self employed have even fewer benefits. All these costs contribute to the rising cost of electrical distribution that the tax payer should not have to continue to pay for.
