Filed via RESS

Attention: Ms. Kirsten Walli, Board Secretary

Dear Ms. Walli:

**Re: EB-2016-0351 -Natural Resource Gas Limited (“NRG”)
Application for Leave to Transfer Gas Distribution System (“Application”)
Tribute Resources Inc./ON-ENERGY CORP. -Argument-in-Chief**

Tribute Resources Inc. and ON-ENERGY CORP., (“Tribute/ON”) thank the Board for the opportunity to provide Argument-in-chief in the abovenoted proceeding.

In review of the reply to Board Interrogatory 4, we note that “the terms of a gas purchase agreement have been substantially negotiated”. It is assumed the price will remain at the \$8.496 for the first 35,314 units. The units used in the IRR are cubic meters while those in the EB-2010-0018 are Mcf. It is logical to assume the units should be per Mcf. Tribute/ON currently produce over 200,000 Mcf annually. Tribute/ON feel it is in the interest of all parties that access to the current NRG and the future EPCOR system should be open for all gas producers under the same terms as provided to NRG Corp.

Although NRG and its consultants have not been able to quantify the amount of gas required for system integrity, EPCOR intends to further study the matter. Tribute/ON have extensive pipelines in the area, including a high-pressure pipeline connected to a 700 psi Union Gas mainline. Tribute/ON would be pleased provide additional system supply capacity to the EPCOR system.

Tribute Resources Inc. and ON-ENERGY CORP. support the approval of the application for the sale of the assets to EPCOR. We would ask that the Board consider including a provision in the order permitting access to the utility by all producers on terms equal to that included in any contract with NRG Corp.

Yours truly,
Tribute Resources Inc. and ON-ENERGY CORP.

Jane Lowrie
President
