The increases proposed are outrageous. Between 2008 and 2009 my Hydro One rates doubled. I went from paying x for two months to paying x for one month.

When we cut back our consumption; Hydro retaliated by raising the so-called delivery charge. I called them and offered to pick up my electricity to avoid the delivery charges. The woman I spoke to laughed. I live within a half hour's drive of 5 major hydro generating dams! Why am I paying a delivery charge at all?
