Strongly object to any increase in Hydro rates. We built a new house 9 years ago with new (energy Efficient) appliances. Those appliances were replaced with new ones in Aug, 2016. Our hot water is heated with propane, not electricity, yet we are still paying \$350-\$450 PER MONTH. We are 2 people in our 60's and conscientious about turning off lights when we leave rooms. This has got to stop!
