This is ridiculous. People in Ontario cannot face these continuous increases in hydro rates. The middle class cannot keep paying for the mistakes that the government makes. We have a Smart meter. We try to use electricity at off peak times. We wash clothes on weekends. We watch television in the dark. We turn the dishwasher on before we go to bed. We get rid of all old appliances. We change our whole way of life. But it doesn't matter. The delivery rates are higher than the actual electricity used on my bill. My son has eczema. We cannot leave our windows open because that aggravates his allergies which in turn aggravates his eczema. We have to turn the air conditioning on so that he does not have to suffer. Please we cannot afford to have higher rates.
