Families are already struggling with the cost of hydro. At times having to choose to feed their families or pay their hydro bill.

Thanks to the cost of living, myself, along with 1000's of others can't even stay on top of their monthly bill, which then cost's us more because of late fees.

Then, we end up getting a disconnection notice, which then costs us even more money if they do cut our services.

This is no fault by the users, it is because it costs so much now just to get by.

This is ridiculous, I see no reason why Hydro needs to charge more. Wynne did enough damage to us when she decided to raise the cost and now they want more money?
