I'm completely disagree with this rate increase! Four years ago, I paid only \$120.00, now I pay over \$430 a month and I'm using less energy. We didn't have any pay increases and have been taxed everyway possible. Not to mention other living expenses like groceries and home heating have increased. Hydro One has no excuse to increase rates especially since their CEOs make multi-millions a year!

What I don't understand is if Hydro One is buying other energy companies, why should there be rate increases?! This is absolutely ridiculios and unless you are going to pay my hydro bill for the next 10 years, I strongly advise not to allow this to be approved.
