I do not support this application. Hydro distribution or delivery charges very often exceed the rates being charged. In addition, they have not been ethical in their charging of Ontario residents as we know. Furthermore, they do not pay for any pole lines for lots requiring services in this province any longer. They actually charge to maintain lines that residents and taxpayers have paid to install at exorbitant rates. We need to fully review and severely penalize their unethical charging tactics and most importantly, NOT allow increases until a full inquiry and accountability process is implemented.
