-- Comments --

Hydro One has increased my electric bill by almost 100% over the past year from ~\$280/month to \$420/month. Further rate increases in the near future are unacceptable. Manufacturing companies such as P&G are leaving the Province partly because of the our high cost of electricity. Hydro One needs to be audited, the management changed, and a rate structure imposed that benefits Ontario residents and promotes manufacturing in our Province. This request for an increase is not reasonable and should be refused.
