I see this increase in a very negative light. It is a tax on rural living. Surely if there is enough money to build a light rail from Toronto to Windsor, there is enough money to keep our Hydro rates reasonable. This will negate any savings that Wynne's proposed rate decreases allows, and these were slim at best. I am repulsed at how little help goes to rural living. Please help us receive the Hydro relief we were promised instead of passing it from one hand to another...Rural Ontario deserves more

Diane Walker
