Dear Ms. Walli:

**Re: File Number EB-2017-0049 - Hydro One Networks Inc. - Application for 2018-2022  
Distribution Rates (the "Application")  
Bragg Communications Inc. and Persona Communications Inc. (both, operating as  
"Eastlink") - Request for Intervenor Status**

---

By way of this letter, Eastlink seeks intervenor status in the proceeding to address Hydro One's request in the Application for an increase in its wireline pole attachment rate.

Eastlink is a telecommunications carrier and broadcasting distribution undertaking that has wireline communications attachments on Hydro One's poles and therefore is required to pay the pole attachment rate approved by the Board. As such, Eastlink has a substantial interest in this aspect of the Application and seeks intervenor status to participate in the proceeding with respect to the Board's determination of the pole attachment rate.

Eastlink reserves the right to participate in all aspects of the process that the Board may order, to the extent these processes relate to the pole attachment rate.

Eastlink believes that it is premature to make a determination on whether an oral hearing is appropriate for this matter.

Eastlink requests that further correspondence with respect to this matter be sent to:
