ONTARIO ENERGY BOARD

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

Wilma Janssen
