

Ontario Energy Board

Re: Reference Number EB-2017-0049

June 5, 2017

Att: Ms. Kirsten Walli, Board Secretary

This rate increase can't be happening...again. Ontarians pay one of the highest energy rates in the country. Enough is enough. I am going to fight this one and I have never fought your company before. It is time to reorganize the company's finances in a much more intelligent way. Many people are buying energy efficient appliances and trying to cut back on their usage and your company keeps asking for us to pay more. When does it end? Give us a break! What a disrespectful bunch of people you all are!
