RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

Chris Chapin

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

Bruce Bruce Edwards

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

Tom Staples

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

Richard Olsen

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

Herman Veenendaal

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

Judi williams

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

Brandon Peever

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

Brent Perkins

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

Geoffrey Lamb

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

Helena Dyck

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

John Caldwell

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

Susan Aussant

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

Terry Parker

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

Tyson Patterson

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

Sue Payne

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

Karen Cronin

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

Tom Tadman

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

Jason Chobotiuk

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

john mcmahon

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

Joanne Beatty

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

John O'Mara

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

Jessie Cheung

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

Kathryn Russell

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

Lynn Turner

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

Kathryn Fletcher

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

rosemary Avery

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

Kevin Renouf

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

,. m mk

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

Leila Murray

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

David Humphries

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

Carla Veljaca

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

Cindy Johann

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

Rosanne Patryluk

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

Ronald Watters

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

Michael Oakes

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

Nicola Barham

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

Rosanna Catenaro

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

Bonnie Canning

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

Fernand St-Louis

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

Wesley How

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

Phil Gaudreau

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

Karen Laidlaw

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

Lily Aboumourad

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

Reg Simser

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

Shawn Weaver

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

Chris Foster

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

Kathleen Grant

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

Alyssa Kealey

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

Suzanne Carre

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

Josie Bellemare

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

Thomas Taylor

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

Matthew Short

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

Lisette Audet

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

Ivan Dlima

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

Joanne Poll

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

Conrad lewis

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

Charlotte Lauzon

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

Michael Fonseca

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

Jacinta Ferrao

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

Ernest Little

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

Kathie Hogan

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

David Hyde

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

Amy Bilodeau

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

Sharon Currier

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

Andrea Clark-Groden

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

Andrew Morin

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

Maureen Kolodie

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

Laura Foy

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

James Weedmark

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

Al Girardin

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

Teresa Golas

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

Fiona Williams

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

Melodie & Duncan Lewis

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

Bob Sanders

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

RE: EB-2017-0049

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

David Freeman

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. We know Kathleen Wynne will not listen to our pleas, which is why we are writing you. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

Ontarians knew all along that Kathleen Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

After the Wynne Liberals sold off Hydro One in a fire sale, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should not be paid \$4.5 million a year while families and seniors can't afford to put food on the table. And, the CEO at Hydro One should not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

Veronica Joyner
