Whats happening here in ontario wrt to the high energy costs is criminal. Hydro keeps raising its rates, and the board keeps passing them with no consideration for the impact upon how it affects the citizens of ontario, or the businesses of ontario. Hydro one is broken, the OEB is broken. How many more lives do they need to wreck. People cannot afford to heat their homes, or even just stay connected to the energy grid. With these increases it is going to make life even more difficult for me, and my family. I have done everything i can to reduce my electricity usage. Whats next? Disconnect from hydro? Im running out of options here.
