As a rural ontario hydro one customer I am completely opposed to raising of the distribution fees. In under 3 years our hydro bill has nearly doubled entirely due to these distribution fees. In fact, we no longer use our air conditioner, replaced all our appliances with energy efficient models, never turn on our computer, rarely use a clothes dryer or oven & leave our home in darkness at night & yet our bill has increased beyond acceptable levels.

The gov'ts new plan, better late than never I suppose, but now to allow hydro one another way to increase these distribution charges makes no sense.

For fairness to the struggling middle class & rural ontario, turn this application down.
