We are cottage owners in NW Ontario in an unorganized area near Kenora. We find the Distribution costs currently in place IN OUR AREA are excessive and are much greater than our usage costs. Our permanent home is in Manitoba where we are charged by usage not usage plus distribution. Our Hydro charges at our cottage are 3 - 4 times higher/kwh (usage plus distribution) than in MB. Our annual charges for a few months in Ontario are higher than our annual charges for our year round home in MB! We recommend that Distribution charges FOR AREAS SUCH AS OURS should be SIGNIFICANTLY REDUCED not increased.
