As a senior, living on a fixed income, I find it hard enough to pay all my bills. To have the provincial government lower delivery charges and hydro rates, although not a good financial decision, was a welcome surprise on my hydro bill. Now Hydro One is trying to push the rates back up. I find it hard to accept that if I don't use any hydro I still have to pay delivery charges and pay for hydro that is lost in that delivery. I can guarantee that my CPP and OAS won't increase by the same percentages as the proposed delivery charges.
