Can those that are determining whether these rate increases are actually warranted please take into account that not many Ontarians have had any sort of raise from their employers since the 08 crash. How about the folks running Hydro One take a pay cut and forgo their bonus's for a couple years, that would more then pay for these ridiculous increases. The middle class is running out of money, we can't keep paying for everything Wynn and Hydro One wants to do. Please stop this stupidity. Consider evening out the current rates especially for Delivery... I pay an outrageous amount for land I own up in Cottage country, and when I asked about it a while ago, I was told by the Utility - and I quote "If you can afford a cottage, you can afford the hydro rates"... There's a ton of responses I could say to this, but won't.... the reality of this situation is that Hydro One is taking everyone for a ride and it needs to stop. These increases are not wanted nor needed, please do the right thing for this province and it's taxpayers.
