I find it very unpalatable for Hydro One to request any increases at this time. our rates are so high that businesses are leaving the province or closing and home owners are having to sacrifice many things including the basic necessities to pay for their hydro usage. Hydro One and Ontario Hydro should be looking inward to improve their financial situation. I know that the employees do a good job but the pay and benefits are vastly out of line with todays economic climate. I am more than sure that efficiencies can be found to not only maintain the current rates but also reduce them.
