EB-2017-0049

2017-06-09

Dear Board Members at the OEB,

I am writing to you regarding Hydro One's recent application to raise electricity prices. This \$141 per year rate increase is unfair and unaffordable. It must be stopped.

1. Please legislate the same "Meter Charge" be shown on Hydro Bills that the gas companies put on their bills. At the moment, it's part of the Delivery Charge, making it hard to calculate the kWhr delivery rate charged by Hydro One or any by butility.

2. Ontarians knew all along that Premier Wynne would raise rates after the next election. But we had no idea that she'd allow it to happen before the next election!

3. Please require OPG to stop refurbishing Pickering & Darlington when they reach their Bad After dates. Tell them to buy from Hydro Québec before New York buys all Québec's surplus and we have no source of baseload electricity after our failed CANDU Nuclear plants are finally finished in the next decade.

4. After the Liberal Government sold off Hydro One, the CEO was given a nearly \$4 million raise. The CEO at Hydro One should Not be paid \$4.5 million a year while families and seniors can't afford to put food on the table.

The CEO at Hydro One should Not be paid \$4.5 million a year when power CEOs in British Columbia are paid 1/10th the amount.

Hydro One should not be allowed to hike rates any higher than they already are until you put a stop to the egregious executive salaries.

Do the right thing. Stop this rate hike.

Thank you for listening,

Sincerely,

Lorne White
