What little i know of the entire hydro one situation is; I do know that there is a more intelligent way to fix the current financial challenges hydro one is possibly undergoing. You need to look where hydro one is loosing money and fix that situation because it is not loosing money to ontario customers!

Also if this is supposed to be a crown corporation should any sale of it not be profited by the entire province???

Canada has some of the best educated people in the world there is a better solution. So spend our corporate assets wisely and find a way to create results without harming the population that is the crown corporation.

I.E. Such as saving money on advertisements. Advertising is ridiculous anyways as hydro one is The electric producer for Ontario.
