I would definitely like to voice my disapproval of any rate hikes of any form by the OEB, including the current application for a hike in distribution rates. Considering we are all struggling to afford our bills now, shame on you for even thinking of raising rates. Your application for a distribution rate hike is an insult to all Ontarians who are under siege from our current government, being taxed and fee'd to death, especially by the energy companies. You already make plenty of profits for the services you provide, and most of us cannot afford what you charge already. And considering how often my power goes out, you're doing a pretty lousy job with all that money you're collecting. It's pretty sickening that you offer this chance to comment and you say comments will be taken into consideration, but we all know that's not true. You will do what you want, but know you are killing us.
