With the cost of hydro in Ontario having already crippled low to middle income families, small and medium sized businesses, it is hard to believe that the "big" folks in the big city are still looking for more ways to keep us down and themselves up. This is pitiful, unwarranted and defeating the citizens and businesses that help hold our province together. What are they doing to this province so blindly and happily? Businesses are shutting down by the current hydro costs devastating effects - viable, productive businesses. Shame.
