It is beyond belief that this is even a request following the outlandish billing we have had to pay without compensation even when the government admitted to erroneously overcharging bereft customers who had to choose hydro or food. The further salt in the wound is the extortion of money when property owners would choose to go off grid and forego Hydro supply; the distribution fee would still have to be paid.

It smacks of mafia control like "protection fees". Why is Ontario Hydro more expensive than other provinces? I believe there are too many pigs at the trough and High level positions should be paid more responsible salaries.

Start there, would you?
